### ADVANCING THE FUTURE OF FOOT ORTHOTICS TO ENHANCE ATHLETIC PERFORMANCE AND COMFORT

*Our XLab staff has over 80 years of combined experience to help relieve foot, knee, hip, and back related pain issues.*

#### WHAT ARE ORTHOTICS?

Orthotics, also known as shoe inserts or arch supports, are designed to support problem spots in your feet. They can lift an arch, relieve heel pain, and/or help compensate for multiple possible body deformities.

#### WHY CUSTOM ORTHOTICS?

Custom orthotics can help address foot, knee, back and other pain related issues by using state-of-the-art technology that maps your feet for structural irregularities. Custom Orthotics are then made to the exact contour of the foot, while also modified to align the foot in the most ideal position to relieve pain issues.

#### Our Office Hours & Location:

Monday-Friday, 9 am - 4:30 pm

2363 S. 102nd St., Suite 101

West Allis, WI 53227
